

Introduction to Music Technology

Workshop with Tom Briggs

Ages 11+ and adults!

Saturday, October 13th

10:00 am - 12:30 pm

\$40

All skill levels!

An introduction and overview of our digital age that covers all you need to get started with music technology.

Explained in simple terms, this one-day workshop will cover the basics of music software programs, songwriting, music production, midi files, and music on the Internet. The three main programs demoed are: Audacity (*recording/sequencing*) GarageBand (*recording/production*), Sibelius (*recording/notation*). The presentation will be on a state of the art Apple computer. Taught with an interactive focus, lots of questions and answers as well as fun musical examples. Bring your creative ideas and music projects to record and work on!

Music Technology assists the musician or composer to make or perform music; to compose, notate, play back or record songs or pieces; or to analyze or edit music in the digital age.
