Call To Order: approx. 6:00 p.m.

Items/Discussion:

The board reviewed and discussed the proposed Deep River Elementary budget document and artifacts for 2021-22 (see attached)

Superintendent White asked the Board to share their interest in continuing with increased custodial FTE (hours) in next year's budget. He reminded them that part way through this year there was an increase in custodial FTE to provide for a temporary position in order to help deal with extra cleaning required by COVID pandemic conditions. Superintendent White pointed out that the current temporary position is being paid for with grant funds received from the government. The proposed budget document does not include the extra custodial FTE because it is unknown whether or not additional grant funding will come through.

There was a discussion among board members as to their desire for extra custodial FTE to be added to the proposed budget. Some members stated their support for it and some stated they would not support the increase to the budget. It was determined that administration will provide information at the next budget workshop regarding how the addition of those extra custodial hours would affect the proposed budget's bottom line for the Board's consideration.

Administration was requested to provide information at the next workshop regarding whether or not the Deep River Elementary budget is still paying for .2 FTE for art, music and P.E. specials. When those positions were moved into the Supervision District budget a few years ago, the needs based FTEs included were for .8 only. At that time the Deep River BOE chose to cover the extra .2 of FTE within their own budget in order to keep it as a whole 1.0 FTE position.

Administration was asked to provide a staffing proposal at the next workshop that will show the impact of the potential need for adding additional staff if the actual enrollment numbers and subsequent effect on class sizes next year were to warrant adding additional section(s).

Administration will also provide more details regarding the requests for painting and carpet replacement.

There was time for public comment. No comments were made.

The next budget workshop will be held February 18, 2021 @ 6:00 p.m.

ADJOURNMENT:

On motion duly made and seconded, the board unanimously VOTED to adjourn at approx. 8:03 p.m.

2021-2022 School Year Budget Request

DEEP RIVER SCHOOL DISTRICT

The Deep River School District is part of a system of schools comprising the Chester, Deep River, Essex, and Region 4 school districts. The districts are governed by multiple Boards of Education and administered under the auspices of the Supervision District agreement. The Boards of Education are committed to providing a rigorous, challenging, and cohesive educational program with a PK-12 line of sight.

Deep River Elementary School

Deep River Elementary School The Deep River Elementary School is the only elementary school in the town of Deep River, Connecticut. The Deep River Elementary School has the charm of a small New England school. The school population consists of students from kindergarten through sixth grade. The main section of the school is housed in the original building, which previously served as the Deep River High School, which was completed in 1914. The building became an elementary school in 1952. Additions were made to the building in 1960 and 1971. The final renovation occurred in 1997 when a new gymnasium was added and the building was upgraded to meet all ADA (Americans with Disabilities Act) requirements.

The Deep River Elementary School continues to place an emphasis on improving student achievement. The staff has continued to focus their efforts on the implementation of the school wide action plans, which were developed as part of our school improvement plan. The goals focused on math as well as reading comprehension.

Priorities have also included updating curricula, maintaining small class sizes, and expanding opportunities for staff to collaborate and review student work. A new master schedule has been developed which allows for more time for the professional staff to collaborate, analyze data, and share student work. Over the past few years, significant funds have been made available to us to upgrade our library collection. Our flexible library schedule resulted in an increased level of team teaching between our librarian and classroom teachers.

The School Improvement Team Steering Committee developed a parent questionnaire, which was distributed to parents and reviewed by the team. Topics included academic rigor, communication, social development, safety, climate, recess, and lunch. A separate questionnaire was developed for the students.

Over the years, Deep River Elementary School has received enormous support from the community at large. School budgets have been supported which have allowed for small class sizes, curriculum expansion, and technology upgrades. The dedicated staff along with the support of the parent community has served, as a successful partnership for meeting the academic, social and emotional needs of the children.

2021-2022 School Year Budget Request

DEEP RIVER SCHOOL DISTRICT

District Strategies for 2017-2022

All schools and staff will be dedicated to pursuing and implementing the strategies that the strategic planning team identified as the most crucial to the improvement of student success in our priority identified skills. They are:

- Operationalize a three community, unified focus Pre-K to 12 on critical and creative thinking for solving difficult problems and to focus and align the districts' goal setting processes with these priorities across towns, building and grades.
- 2. Clarify/unify the assessment philosophy of the districts and comprehensively audit the use of assessment resources to ensure they are consistently applied throughout the districts and then build/use the assessment capacity of the districts to enable reliable assessment and date reporting of student proficiency in the priority skills (3 Year Process).
 - Data collection across the districts
 - Assessment Audit
 - Assessment Philosophy
- 3. Support teachers in the enhancement of their capacity (professional learning, development, support and feedback) to teach and assess higher order thinking skills (critical and creative problem-solving) in a digital learning environment. (Educator Evaluation Rubric 3B and 3C).
